

Object : Letter of recommendation

I, Nicolas METGE, managing Director of ISC (Ingénierie des Structures et des Chantiers), thoroughly enjoyed my time working with KREYO. During several years their knowledge and expertise in the production of formwork and reinforcement plans was a huge advantage to our entire office. They worked on difficult and great building projects in France and in Africa and every construction came to an end successfully thanks to them.

They have a great sense of communication so that every problem is well reported so that we could find a solution together and in time.

Without a doubt, I confidently recommend this company. Every Members of Kreyo are pleasant, professional, curious and concerned which are advantages that can serve any client.

Please feel free to contact me should you like to discuss Kreyo's qualifications and experience further. I'd be happy to expand on my recommendation.

Best wishes,

Done in ~~à~~ Chevilly Larue, on the 17th of May 2017

Nicolas METGE
Directeur Général
